Mission Statement including organization operating history

Infinite Ability is an organization that works to keep youth off the streets, in school, physically and mentally fit to become productive sons, daughters, adults and citizens. Our objective is to provide enrichment programs to stay fit, stay safe and stay on track. Our enrichment programs consist of fitness classes, and cultural programs to fight obesity, give awareness and expand minds. We have been operating and active in the Greater Los Angeles area, providing services for the public benefit since 2004. Our motto is, 'Mind, body and Soul is your path to Infinite Ability, 110%'.

What We Provide

We provide social interaction, development, mentoring and intervention through: 1) team and individual training instruction and coaching for skills and fundamental development; 2) admission to competitive league and tournament events around California; 3) NCAA and AAU sanctioned tournaments for college exposure and recruitment; college preparation counsel from FAFSA, SAT and ACT, LORs and college outreach.

Description of product and usage for which product will serve its' purpose; What you or your company will receive in return

We are requesting a contribution of \$5,000 for our Elite Youth High School Level Travel Basketball organization and team. This will create for our organization the opportunity to pay for our events around Southern California, Nevada, and Oregon from the month of March to July (SEE BUDGET ATTACHMENT). This event is crucial for our youth to get exposure and be seen by hundreds of college schools in this early viewing period. These funds will cover, 1) event registration fees ONLY. What you or your company will receive in return is signage by having your name on our organization t-shirts and on our website's front page thanking you for your great contribution that allowed these youth to attend these events throughout the 2016 Spring and Summer season. **(Our goal is \$10,000, but any contribution will be happily accepted)**

Population and geographic area served by organization

Our target population is at-risk youth in high risk areas, in the k-12 range, living in a single parent, and low-income setting. The focus groups are mainly, but are not limited to South, and South Central Los Angeles. Currently we have over 70 youth members, returning and/or joining our program in 2016, continuing the long-lasting, working relationships with local parks, recreational facilities, schools, and community districts.

Evaluation process for measuring program or project effectiveness

We will administer this event to Las Vegas with our coaches and our participants' parents. On this trip to Las Vegas, we will have pictures, video, stats and game results that will be available for your committee. The appointed coaches will be the immediate supervisors during the practices, games and training. We will measure based on increase in weight loss to muscle mass, strength, endurance, retention, and an increase in recruitment.
